**Efinix** (www.efinixinc.com) is a leading innovator in programmable products platforms and technologies. We design semiconductor devices and provide system solutions using our unique, disruptive, flexible FPGA Quantum™ architecture. Our product has a unique Power-Performance-Area advantage that enables our customers to design and deliver high-volume, low-power, and small form-factor products for advanced compute acceleration and deep learning application. Efinix is headquartered in Santa Clara, USA with offices in Hong Kong, China and Malaysia.
