Join WorldQuant Campus Recruitment and start your career as Quantitative Researcher!

**WorldQuant** is a quantitative asset management firm founded in 2007 and currently has over 600 employees working in more than 20 offices in 15 countries. We develop and deploy systematic financial strategies across a variety of asset classes in global markets, utilizing a proprietary research platform and risk management process.

Our **Beijing, Shanghai and Taipei** offices (depending on the position) are looking for individuals with a background in **Science, Engineering and Finance** to join us as a **Quantitative Researcher**. While prior finance experience is not required, a successful candidate must possess a strong interest in learning about finance and global markets. Upon joining us, you will not only receive competitive financial rewards (based on performance and position), but also enjoy a number of advantages to develop your future career, including:

- Learn from senior investment experts and join our established mentorship system
- Opportunity to visit other global offices of WorldQuant and exchange ideas with different teams
- Opportunity for promotion to Vice President of Research or Portfolio Management in 2 to 4 years
- Work with excellent peers and explore their potential in the challenging quantitative finance world

We will hold a recruitment presentation in HKUST **from 5:30pm-6:30pm on 18 Oct (Thu)** at **Room 2303, (via lift no. 17-18)** to introduce the job opportunities as well as WorldQuant in detail. Participants will also have the chance to communicate directly with our management and recruiting team to learn about:

- The quantitative finance industry
- How to become a successful Quant in global financial markets
- The career path
- The hiring process

Apply **NOW** to start your journey, and we look forward to seeing you join us in the near future!
Quantitative Researcher

(If you are currently residing in Hong Kong) WQHKQuantJobs@worldquant.com
(If you are currently residing in Shanghai) WQSHQuantJobs@worldquant.com
(If you are currently residing in Beijing or other cities) WQBJQuantJobs@worldquant.com

Best Regards,

WORLDQUANT

WorldQuant Recruiting Team
Quantitative Researcher

WorldQuant develops and deploys systematic financial strategies across a variety of asset classes and global markets. We seek to produce high-quality predictive signals (alphas) through our proprietary research platform to employ financial strategies focused on exploiting market inefficiencies. Our teams work collaboratively to drive the production of Alphas and financial strategies — the foundation of a sustainable, global investment platform.

WorldQuant’s success is built on a culture that pairs academic sensibility with accountability for results. Employees are encouraged to think openly about problems, balancing intellectualism and practicality. Great ideas come from anyone, anywhere. Employees are encouraged to challenge conventional thinking and possess a mindset of continuous improvement. That’s a key ingredient in remaining a leader in any industry.

Our goal is to hire the best and the brightest quantitative researchers. We value intellectual horsepower first and foremost, and people who demonstrate an exceptional talent. There is no roadmap to future success, so we need people who can help us create it. Our collective intelligence will drive us there.

The Role: Research is at the core of WorldQuant. Through rigorous exploration and unconstrained thinking about how to apply data to the financial markets, our researchers are in constant search of new Alphas. We strive to understand data in ways our competitors don’t believe is possible. Researchers at WorldQuant employ tested processes seeking to identify high-quality predictive signals that we believe are undiscovered by the wider market. These signals are mathematical expressions of data that are used as inputs in our quantitative models.

WorldQuant is seeking an exceptional individual to join the firm as a Quantitative Researcher. The person must have a strong understanding of the investment research process to create computer-based models that seek to predict movements of global financial markets. While prior finance experience is not required, a successful candidate must possess a strong interest in learning about finance and global markets. Candidates will have a research scientist mind-set; be a self-starter, a creative and persevering deep thinker who is motivated by unsolved challenges.

Its Impact: As we pursue our goal of creating new alphas, we need researchers who will lead us there. WorldQuant’s unique investment platform is a leader amongst its peers and the methodology we employ is cutting edge. We desire people who will help us in our relentless pursuit to succeed.

What You’ll Bring:

- Ph.D. or M.S. degree from a leading university in a quantitative or highly analytical field (e.g. Electrical Engineering, Physics, Computer Science, Mathematics, Financial Engineering)
- Ranked in the top 10% of bachelor’s degree class
- Demonstrated ability to program in C/C++ on a Unix/Linux platform
- Excellent problem solving abilities and judgment with a strong attention to detail
- Mature, thoughtful, with the ability to operate in a collaborative, team-oriented culture
- Strong English language skills; ability to communicate complex concepts in simple terms

Position is based in one of our research offices located in Beijing, Shanghai or Taipei.

Interested and qualified candidates can email their CV in ENGLISH and CHINESE, together with a transcript of their bachelor’s degree to ONE of below email addresses:
(If you are currently residing in Hong Kong) WQHKQuantJobs@worldquant.com
(If you are currently residing in Shanghai) WQSHQuantJobs@worldquant.com
(If you are currently residing in Beijing or other cities) WQBJQuantJobs@worldquant.com
